

BUSHFIRE BRIGADE ANNUAL GENERAL MEETING

**AGENDA FOR THE SHIRE OF MINGENEW BUSHFIRE BRIGADES' ANNUAL GENERAL MEETING
TO BE HELD AT THE SHIRE CHAMBERS ON 25 MARCH 2019 COMMENCING AT 6PM.**

1.0 DECLARATION OF OPENING

2.0 RECORD OF ATTENDANCE / APOLOGIES ATTENDEES

To be confirmed

APOLOGIES

Vicki Booth – A/Area Officer – Fire Services Midwest (DFES)

3.0 CONFIRMATION OF PREVIOUS MEETING MINUTES

3.1 BUSHFIRE BRIGADES' MEETING HELD 02 OCTOBER 2018

BRIGADES' DECISION – ITEM 3.1

Moved:

Seconded:

That the minutes of the Bushfire Brigades' Annual General Meeting of the Shire of Mingenew held 02 October 2018 be confirmed as a true and accurate record of proceedings.

VOTING DETAILS:

4.0 OFFICERS REPORTS

4.1 Chief Bush Fire Control Officer Report- Murray Thomas

- Overview of the 2018/19 Fire Season
- Gazetted change in Shires Restricted Burning Times- now changed from the 17th September to the 1st October. All other timeframes remain the same (Prohibited- 1 Nov- 31 Jan, Restricted 1 October-15 March, open season 16 March- 30 September). This means that the CBFCO can now shorten or lengthen that new restricted date by 14 days depending on seasonal conditions (so restricted timeframe can potentially be pushed out to 17 September-31 October or shortened to 14 October-31 October).

4.2 Captains Reports-

All Captains to remark on level of training of its volunteers and any identified gaps or training requirements.

- 4.2.1 Yandanooka
- 4.2.2 Lockier
- 4.2.3 Guranu
- 4.2.4 Mingenew North
- 4.2.5 Mingenew Town

4.3 Shire CEO Report

- 2017/18 Operating Grant has been fully expended and acquitted.
- ESL Grants- Applications for Capital Expenditure Grant close 30/03/19, however applications needed to be accompanied by quotations and endorsed by the Regional Superintendent prior to this date.
 - An application has been submitted for a Fast Fill Trailer for 19/20 funding round;
 - Scope of works and quotes will need to be obtained for future fire shed expansion works; this will need to be prepared to take advantage of the 20/21 funding round
- It's been revealed that the Cel-Fi systems were not eligible purchases through the ESL funding, and – as such – we are unable to purchase more using this funding
- Static water supplies (like water tanks) are also ineligible; but may be eligible for CBH's Grass Roots funding or Western Power's grant program.
- Schedule for meetings now changed, with the AGM in March and then a later planning meeting during the course of the year so we do not miss opportunities for capital grant funding.
- Shire has been approved for a replacement Rapid Response Vehicle/Light Tanker this year- will be received in 2020.
- Awaiting confirmation of DFES contribution for operational expenditure over the next year - general discussion to be had about equipment supply levels, new equipment requirements and expenditure of the grant.
- Nominations for Chief and Deputy Chief Bush Fire Control Officer for the 2019/20 fire season- appointment information will be sent out via the rates notices.
- Controlled burning discussion with DCBA (formerly DPAW) for reserves.
 - Potential for local Brigades to conduct burning in smaller reserves (e.g. Depot Hill) under DCBA's proscription
- Volunteer Numbers- would the brigades like to hold an open/information day for recruitment? Shire can assist with promotion/advertising/venue.

5.0 ELECTION OF OFFICERS FOR THE 2019/20 FIRE SEASON

5.1 Election of Captain and Deputy Captain for Shire of Mingenew Brigades

BRIGADES' DECISION – ITEM 5.1

Moved:

Seconded:

That the following persons be appointed to the position of Captain or Deputy Captain for the following Bush Fire Brigades:

- a) Yandanooka
Captain: _____
- b) Deputy Captain: _____

Lockier

a)	Captain:_____
b)	Deputy Captain:_____
Guranu	
a)	Captain:_____
b)	Deputy Captain:_____
Mingenew North	
a)	Captain:_____
b)	Deputy Captain:_____
Mingenew Town	
a)	Captain:_____
b)	Deputy Captain:_____
VOTING DETAILS:	

6.0 NOMINATIONS FOR BUSHFIRE CONTROL OFFICER & DEPUTY BUSHFIRE CONTROL OFFICER

BRIGADES' DECISION – ITEM 6.0

Moved:

Seconded:

1. That the following persons be nominated to the position of Bushfire Control Officer for the Shire of Mingenew: and;
2. That the following persons be nominated to the position of Bushfire Control Officer for the Shire of Mingenew:

7.0 GENERAL BUSINESS

7.1 Response to Questions from Previous Meetings

7.1.1- Ability to split Shire when declaring harvest bans: This can be done; relevant areas must be designated if this is deemed desirable.

7.1.2 Cross Border Cooperation- A copy of the district directory will be provided with this agenda to provide contact information for all our counterparts in the region.

7.2 Other General Business

7.2.1 Reporting of Fires: DFES have requested that all fires are reported back to them, as these statistics provide information relating to resource requirements within the region and influence funding levels.

MINGENEW BUSHFIRE ADVISORY COMMITTEE MEETING AGENDA – 26 September 2017

7.2.2 Harvest and Vehicle Movement Bans: It is a legislative requirement that a HVMB be issued on any Total Fire Ban day where the FDI exceeds 35 on the McArthur Mk 4 Meter.

7.2.3 Training Calendar: DFES have provided a draft of their regional training calendar.

8.0 TIME AND DATE OF NEXT MEETING

Next Bush Fire Brigades' Meeting to be held on _____ commencing at_____.

OPERATIONAL CONSIDERATIONS

(Checklist for first arriving Firefighters)

The checklist below is a list of operational **considerations** for the first arriving fire crew when giving the first SITREP to COMCEN or your normal reporting lines.

P

POSITION AND PROPERTY THREATENED

- Assess the situation
- Exposures/assets at risk/critical infrastructure

A

AREA

- Size of fire

F

FUEL DENSITY AND TYPE

- Estimate rate of spread (ROS)

T

TIME TO CONTROL

- Establish IMT
- Decide on objectives, strategies and tactics
- Consider delegating key functions

A

ASSISTANCE REQUIRED

- Traffic Management
- Road closures
- Additional resources

C

COMMUNICATIONS AND CONTROL POINT

- Radio frequencies/Communications plan
- Location of control point
- Consider media and public advice/warnings

S

SURFACE WIND STRENGTH AND DIRECTION

- Safety is first priority
- Send SITREP

NOTE: The above checklist should only be utilized for the first arriving Incident Controller. For additional and more detailed checklists, refer to the “DFES Operational Checklists” booklet.

CREW AND SECTOR SAFETY - LACES

In bushfire situations there is a requirement to continuously reassess the changing dynamics of the fire to ensure a safer environment for all. Crew and Sector OIC are to utilise the AFAC standard safety acronym **LACES** to plan the safety of their crews.

LACES is explained in more detail below:

FACTOR	NOTES
L Lookout	 Establish lookouts (preferably a designated firefighter.)  Task all crew members to be alert.  All firefighters must continuously re-evaluate their situation and have the ability to initiate communications.
A Awareness	 Remain aware of the fire situation including: - Current and potential weather - Terrain and aspect - Fuel types and fuel loads - Hazards - Crew locations  All personnel have a responsibility to be alert and act decisively before situations become critical.
C Communications	 Stay in communication with your people.  Communicate changes in situation  Provide regular updates  Use briefing procedures (SMEACS)
E Escape route	 Know your escape route at all times and ensure your fireline colleagues are also fully informed.  Position vehicles to allow for rapid escape.
S Safety zone	 Always have safety zones (anchor point) to which you can retreat if fire behaviour escalates.  Well burnt ground is a safe area however; consideration must be given to ensure the safety zone is large enough.

A fully expanded Incident Management Structure

EMERGENCY ALERT.
BE WARNED. BE INFORMED.

BUSHFIRE WARNINGS: WHAT SHOULD YOU DO?

ALERT LEVEL	WHEN WILL IT BE ISSUED?	WHAT SHOULD YOU DO?
ADVICE Be aware and keep up to date Instant at 11am and 1pm within five minutes of danger	- When a fire has started but there is no immediate danger - There is no threat to lives and homes - The fire is likely to be small and may be causing smoke near homes - Firefighters will be able to control the fire	You need to be aware - Stay alert and monitor your surroundings by watching for signs of a bushfire, especially smoke and flames - Check the Fire Danger Rating for your area - Close all doors and windows
WATCH AND ACT Put your preparations into action — do not wait and do within every two hours unless the situation changes	- When a fire is approaching and conditions are changing - There is a possible threat to lives and homes - The fire will be out of control. There may be smoke and embers around your home and roads - Firefighters will be working with machines to put in containment lines to stop the fire spreading	You need to leave or get ready to defend - Put your bushfire survival plan into action - If you have decided to leave for a safer place, leave now and take your survival kit with you - Leave until before roads are closed and full of smoke
EMERGENCY WARNING Take immediate action to survive — you will be impacted by the smoke every hour unless the situation changes	- When there is immediate danger and the fire will impact your home - There is a threat to lives and homes - The fire is out of control and moving very fast. This is the highest level of warning - Firefighters will find it difficult to control the fire and it will be a significant firefighting resource and a change in conditions to bring it under control - A siren sound called the Standard Emergency Warning Signal (SEWS) may be used to get your attention on radio and television	You need to act immediately to survive - If you have not left yet and the way is clear, leave immediately for your safer place and take your survival kit with you - If you have not entered your home, it is too late to do it now. Your safest option is to leave for a safer place, if the way is clear - Do not re-enter at the last minute in a vehicle or on foot as this is deadly. Leave immediately if the way is clear
ALL CLEAR Take care to avoid any dangers and keep up to date Sound when the threat has passed	- When the danger has passed and the fire is under control - Firefighters will be working to put the last bits of the fire out and make the area safe - It may still not be safe to return home. Emergency services will advise when you can go home	You need to be careful - Remain vigilant in case the situation changes - When driving in the fire area you should take extreme caution and drive slowly - Dangers like smoke, fallen trees and downed power lines may be on roads and emergency services will still be working in the area

You may get an Emergency Alert
Emergency Alert is one tool used to warn communities of an emergency and should not be relied on as your only source of information. It is an additional tool used to alert people in a specific location where there is immediate danger. Flares, sirens, government websites and information lines are all good sources of information during emergencies.

All home phones, including silent ringtones, are automatically registered to receive Emergency Alerts. Mobile phones are automatically registered to the customer address which may be different to where you live.

Emergency Alert works by delivering emergency warnings direct to you when there may be in danger in your neighbourhood. It is a system that uses web technology to send warnings to home phones or mobiles. It will only be activated when authorities have credible information that there is an emergency but could or will threaten lives and properties. It does not replace the need to look after your own safety by monitoring local conditions, keeping up to date by radio, television, internet and information lines, and taking preventative action where possible. Emergency Alert cannot be guaranteed and there may be no warning for some incidents, for example if a bushfire is moving very quickly and starts close to homes.

How will I know if I have received an Emergency Alert?
0444 444 444 is the number assigned to Emergency Alert. This number will always be displayed in the message header or caller identification.

SMEACS BRIEFING CHECKLIST							
Operation Period		Incident Name:	Inc / OCN #:	Date Prepared	Time Prepared	Prepared by:	Sector:
From:							
To:							

BRIEFING PRELIMINARIES:	
- Decide type of briefing, e.g. overview, delegation, changeover, etc - Identify relevant briefing points from checklist.	
S - SITUATION	
Overview of the Situation	
History	
Current Situation	
Predicted Situation	
Values at Risk	
Forecast Weather	
Current Weather	
Resource Deployment	
M - MISSION	
Incident Objectives	
E - EXECUTION	
Divisions & Sectors	
Strategies for each Incident Objective	
Tactics	
Task & Resource Allocation	
Authority to Act - Responsibilities	
Known Hazards	
Welfare Requirements	
Part to play for those receiving briefing	
Implications of not achieving work targets	
Dress requirements (including PPE)	
Time constraints & deadlines	

A - ADMINISTRATION and LOGISTICS				
Location of control, command & support facilities				
Ground support, Catering & Medical Assistance				
T-Cards, Logs & Diaries, Record Keeping				
Finance and Accounting requirements				
C- COMMAND and COMMUNICATIONS				
Incident Management Structure				
Incident Status (Level 1,2 or 3)				
Communication Plan (who, when, why)				
Radio Channels / Equipment				
REPORTING:				
To whom				
By whom				
When				
Detail required e.g. sitrep proforma				
How (equipment, channels, No's)				
S- SAFETY				
Injury / Near Miss				
Safety Issues				
BRIEFING SUMMARY				
Ask questions to confirm understanding				
Issue supporting documents				
Summary				
Name		Date	Time	Sign.
Details of Group Being Briefed:				
To be used by all briefing Officers at Sector, Division, IMT and SCC/RCC levels.			To go to all incoming staff at Sector, Division, IMT and SCC/RCC Levels.	

UXO GUIDE

BUSH FIRE FIGHTING GUIDANCE – OPERATING WITHIN REGISTERED UNEXPLODED ORDNANCE (UXO) SITES

UXO Zones surface searched to 300mm are deemed safe for land-based firefighting operations. The following guidance is provided where variation applies.

	UXO ZONE & DEFINITION	INTERPRETATION FOR FIRE CONTROL	APPLIANCE/EQPT ABLE TO BE USED SAFELY						
			LAND-BASED				AIR		
			L	H	FE	DOZ	L	ER	
ASSESSED	ZONE 1. DEEP SEARCHED TO 2 METERS Has been searched using technology that provides a high level of confidence that no UXO will be encountered	These areas have no constraints to fire control operations. Access is not limited. All types of ground and aerial suppression equipment can be used.	Y	Y	Y	Y	Y	Y	Y
	ZONE 2. SURFACE SEARCHED TO 300MM Has been searched using technology that provides a high level of confidence that no UXO will be encountered.	- Aerial suppression tactics can be applied - Rubber tyred tankers up to & including 3.4 classification (fast attack, light tankers, heavy tankers, heavy duties and gang trucks, etc) can be used - Earth moving equipment can be used to create a mineral earth break by removing the surface fuels only.	Y	Y	Y	Y	Y	Y	Y
	ZONE 3. DEEMED SURFACES SEARCHED TO 300MM Areas of land that have been exposed to extensive and repeated surface disturbance. These areas include tracks and roads that are trafficked regularly, utility easements, pine plantations and agricultural lands that have been exposed to ripping, ploughing and tynning.		Y	Y	Y	Y	Y	Y	Y
	ZONE 4. INTERPRETED UNCONTAMINATED Areas that have historical records (artillery firing templates, etc) that indicate the area is <i>unlikely</i> to be contaminated.		Y	Y	Y	Y	Y	Y	Y
UXO	ZONE 5. KNOWN OR SUSPECT CONTAMINATION Areas where UXO has been confirmed or historical records indicate contamination.	Aerial resources may be used. Vehicle access for back burn and mop up is only possible on well travelled tracks agreed deemed surface searched (Zone 3) and identified on the site specific pre-plan.	N	N	N	N	N	N	Y
UXO	ZONE 6. IMPACT AREAS ON LIVE FIRING RANGES Known impact areas that are currently in use on firing ranges.	No access by fire fighting resources	N	N	N	N	N	N	N

Legend: LU Light Unit / Light Tanker HT Dozer FEL Front End Loader Dozer Air Aerial suppression and intelligence aircraft

GLOW STICK & TAPE COLOUR GUIDE

Colour Glow Stick	Purpose	Colour Tape	Purpose
WHITE	Identifying a Sector Boundary	WHITE	Identifying a Sector Boundary
BLUE	Identifying where Mop-up is required	BLUE	Identifying where Mop-up is required
RED	Identifying Hazards (dead-end tracks, unstable surfaces, dangerous trees etc)	RED/WHITE Hazard tape	Identifying Hazards (dead-end tracks, unstable surfaces, dangerous trees etc)
GREEN	Identifying Points of Interest (Track in and out point identification, gates)	GREEN	Identifying Points of Interest (Track in and out point identification, gates)
ORANGE	Identifying Water points	ORANGE	Identifying Water Points
YELLOW		YELLOW	Identifying a tree to be felled
RED/WHITE/YELLOW		RED/WHITE/YELLOW	Identifying a hazardous tree to be felled
RED/WHITE/BLUE		RED/WHITE/BLUE	Identifying a hazardous tree to Mop-up.
